SW Developer is ...

◆ Real Maker !!!

- ✓ Idea to Real
- ✓ Innovation Tool
- ✓ Soul of the machine
- ✓ And **Future Service Planner**

◆ High-income workers !

◆ Experts

◆ **FOSS Players**

I was a SW developer

- ◆ SI (System Integration) developer
- ◆ But create good SW
 - ✓ full down menu VI editor (1992)
 - ✓ Remote printing module (1993)
 - ✓ C++ Development framework (1994)
 - ✓ KMS (2000)
- ◆ Lost my source ^^;
- ◆ If I was opened my source ... ??? !!!

Now SW Developer is in Korea ...

- ◆ 4D Worker

- ✓ Dirty

- ✓ Difficult

- ✓ Dangerous

- ✓ And **Dreamless**

- ◆ Many developers work in **SI (System Integration) Company**

- ◆ Many developers are **passive workers**

- ◆ Developers do **not have a lot of experience**

Need SW Developer in Korea ...

◆ Active Developers

- ✓ FOSS Developers & Contributors
- ✓ Solution / Service Developers
- ✓ Hacker (programmer subculture) - [Richard Stallman](#)

◆ Latest technology developers

- ✓ Cloud & Big Data
- ✓ IoT/WoT, Conversions etc.

◆ Kernel Developers

◆ Developers **have a lot of experience**

I have a dream ...

- ◆ Korea SW developers will be global expert.
- ◆ Will be FOSS contributors ...
- ◆ Leading SW world ...
- ◆ Will get many money ...

We will try ...

- ◆ Make expert SW developers. (Using Project Portfolio)
- ◆ Support to FOSS community
- ◆ Support FOSS Developer education
- ◆ Make global leading FOSS Projects

Let's go together !!!
